

Product Information Sheet

Description

SoyThin™ Artist Paint Thinner is another revolutionary family of products from Soy Technologies, one of the original pioneers of soy based chemistry. SoyThin™ Artist Paint Thinner is an odorless clear mixture of petroleum distillates, highly refined by soy additives. In addition to a stronger thinner with less hazardous vapors than traditional mineral spirit based thinners, SoyThin™ provides greater dissolving power and blends with most solvent based artist paints and commercial glazing products. The soy additives are proven to keep bristles soft, more absorbent, and longer lasting.

Product Options

SoyThin™ Artist Paint Thinner: Packaged with attractive retail labeling and industry standard F-Style bottles with child proof caps, product is available today in the following RTU (ready-to-use) sizes: 4 x 1's (128 oz. or 3.78 L); 6 x 32 oz (946 ml); 12 x 16 oz (473 ml); 12 x 8 oz (236 ml), and 20 x 4 oz (118 ml).

All products are exempt from California Air Quality Regulations in sizes of 32 oz (946 ml) or less.

Conforms to ASTM D-4236.

Safety Data (see SDS for GHS-US classification)

Avoid contact with eyes and skin. In case of eye contact, wash eyes immediately and continuously and get medical attention. Do not ingest. If swallowed, get medical attention immediately. Read and follow additional cautions on the labels carefully. When product is used as intended, by following all precautions, the product is not anticipated to cause chronic toxicity of any significance, and therefore conforms to ASTM D-4236 specifications.

Keep out of reach of children.

Technical Data - See SDS for Additional Data

Type: Solvent
Appearance: Clear Liquid
Scent: Odorless
pH @ 1% Solution: 6.0 - 7.0
VOC: 757 g/l
SCAQMD Exempt (≤ 32 oz)

Flashpoint: 109°F (42°C)
Autoignition: 689°F (365°C)
Boiling Point: 311°F (155°C)
Relative Density: 0.76740
Density: 6.2 lbs/gal
